

**Highest Quality Assurance of Safety and Taste  
NSF-61 Approved**

**Compact, Low Energy Fully Automated  
To Treat Any Water Source**

**The Strongest, Fastest Protection From the  
Worst Viruses, Bacteria and Contaminants**

**Low Maintenance and Operating Costs  
1,000 Litres = < \$0.10**

**Permanent Solution from Water Issues  
Warranted, Satisfaction Guarantee**

**Enhances any existing Equipment (e.g. RO)  
Protects appliances and fixtures**

**Doesn't Waste our Precious Water**

**No More Plastic Bottles in our  
Landfills and Oceans**

Aclarus is proud to offer the Indi Series of Ozone Water Treatment Systems as the new solution to even the worst water issues. Ozone's strength and perfect taste make it the choice for 75% of European cities and 95% of bottled water. Aclarus has made it available for every home.

**ACLARUS AOWT-4GPM**

Our Canadian built systems are low energy and virtually no maintenance. Ozone naturally and instantly treats any water source (well, lake, city) on-demand. No chemicals or inputs, just low watt electricity and air for easy, healthy water.

300 times stronger, 3,000 times faster than chlorine, ozone is known as the most naturally powerful disinfectant for quality and great taste. It preserves healthy minerals and oxygen in the water for every use.

Aclarus systems offer premium water, proven to run for years at the lowest cost. Let us clear your bad water, for life.

Aclarus ozone systems are **designed and built in Canada** to treat water to the highest standards anywhere in the world. Our ultra efficient systems treat any source water **naturally, completely and at any flow rate**. Currently enhancing commercial, agricultural and humanitarian industries, ozonated water is now available for home use.

Only Aclarus offers the **best tasting water, rich in oxygen, minerals** and is assured of **bottled quality for the entire residence, cottage, condo, or subdivision**. Our proprietary system insures the strongest, safest and most effective water treatment from even the worst impurities, taste and odor. **Low cost, low maintenance and energy efficient for years of perfect water.**

## The Complete System With No Comparisons

### Aclarus Ozone Systems

- Automated to instantly DESTROY nearly all water contaminants
- High Flow on demand from any water source
- Completely natural, producing only oxygen and water
- Low Maintenance, long life, compact & low energy design

### Reverse Osmosis

- Large, expensive, low flow, high maintenance
- Produces "Zero Water" lacking important minerals & electrolytes
- Membranes are a breeding ground for bacteria
- Causes water to search out metals, corroding plumbing fixtures and pipes

### Chlorine and Chemicals

- 300x weaker and 3000x slower than ozone, bad for skin & hair
- Creates THM's & other by-products that can cause disease
- Constant costs, dangerous chemical storage, handling and & mixing

### Ultra-Violet (UV) Light

- Requires pre-treated water, and only in optimum condition
- Does not screen out minerals, chemicals and /or organics
- Constant maintenance and replacement of expensive lights
